## VOLUME XXVI, 1919

This index has been very carefully prepared; you should make the most of it. Have your copies bound. Send us the twelve numbers, and we will return the volume to you, handsomely bound in half leather, for \$1.50—you to pay express charges both ways. The expense is small and your journal becomes, thereafter, a valuable reference library—one to which you will constantly refer in times of difficulty. A collection of well-bound and well-indexed volumes of THE AMERICAN JOURNAL OF CLINICAL MEDICINE is a veritable cyclopedia of practical therapeutics, a library in itself, and worth to practitioners many times its cost.
